Site Remediation Program/Technical Reports

Dear Mr. Martin:

The Illinois Environmental Protection Agency ("Illinois EPA") has completed review of the *In-Situ Chemical Oxidation Work Plan Champaign Former MGP Site Champaign, Illinois* ("Work Plan"). The Work Plan was received by the Illinois EPA on March 8, 2013 (Log No. 13-53234), with a duplicate Work Plan received on March 18, 2013 (Log Number 15-53292). The Work Plans are identical and the Illinois EPA approves the Work Plans.

All future submittals to the Illinois EPA concerning the Illinois Power Town Gas site in Champaign should include one original and one copy of each document. If you have any questions, please feel free to contact me at above telephone number, address or e-mail me at Greg.Dunn@illinois.gov.

Sincerely,
