

Delivery Service Rates

As a delivery company, Ameren Illinois is responsible for the transmission and distribution infrastructure that moves electricity from suppliers to your door. Delivery Service charges allow us to construct, maintain and improve the system that serves you and respond 24 hours a day to restore service when it is interrupted.

Ameren Illinois assigns electric customers to a Delivery Service (DS) rate classification, as shown below.

DS-1 Residential Delivery Service (predominantly residential household purposes)

DS-2 Small General Delivery Service (<150 kilowatt maximum monthly demand in 11 of the 12 billing periods during the prior calendar year)

DS-3 General Delivery Service (≥150 kilowatt demand in two of the 12 monthly billing periods but less than 1000 kilowatt maximum demand in 11 of the 12 periods during the prior calendar year)

DS-4 Large General Delivery Service (≥1,000 kilowatt maximum monthly demand in any two of the 12 billing periods during the prior calendar year)

DS-5 Optional Street Lighting and Outdoor Protective Lighting Service

DS-6 Temperature Sensitive Delivery Service (optional delivery service for Rate DS-3 and DS-4 customers)
