

# Electric Vehicle Charging

Ameren Illinois is your EV charging resource.

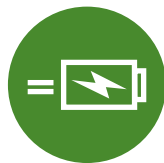

Whether at home or on the road, it is easy to charge your EV.

Charging options to meet your needs:

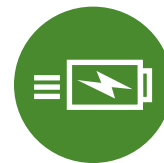

## Level 1

- Provides ~5 miles of range per hour of charge
- Comes with every electric vehicle
- Plug directly into a standard 120-volt outlet
- No other special charging equipment needed

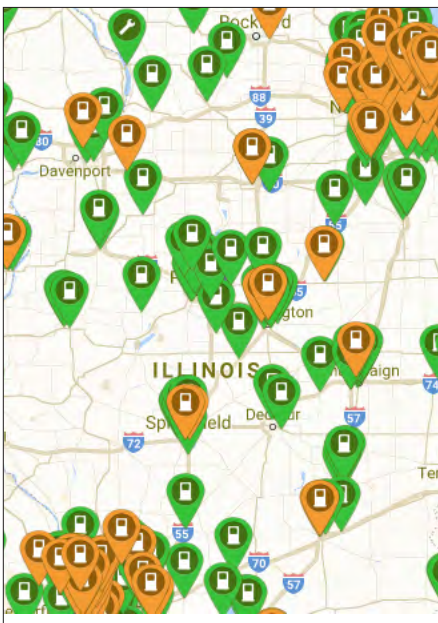

## Level 2

- Provides ~25 miles of range per hour of charge
- Commonly used for public, work or home charging
- In-home installation is available

## DC Fast Charging

- Provides up to an 80% charge in 30 to 45 minutes
- Typically located along major highway corridors

## How to find a public charger:

There are currently over 300 public charging stations available in Illinois and 60 of those are in Ameren Illinois' service territory with even more planned. A map of publicly available charging stations can be found on [AmerenIllinois.com/EV](http://AmerenIllinois.com/EV) and finding public charging on the road is easy using vehicle navigation and apps like **PlugShare** and **Open Charge Map**.
