

RENEWABLE SOLUTIONS

Lead the way to a sustainable energy future

- Subscription-based program
- Eligible businesses can replace up to 100% of their total energy with renewable sources

Predictable Pricing

- Price certainty
- No market risk
- Not tied to the energy market like a VPPA

Simple, Easy Administration

- RSP Credits and Charges are included on the standard monthly energy statement
- Renewable Energy Credits (RECs) will be tabulated monthly, included on monthly energy statement and retired on your behalf semi-annually

No Upfront Capital Investment

- No negotiations with developers
- No operations or maintenance
- No additional administrative work

Keep Your Clean Commitment

- Supports your sustainability goals
- Reduce your carbon footprint
- Lower emissions
- Support the renewable energy market
- Be good stewards of the Missouri environment
- Shows you use clean energy to your shareholders, customers, community and employees

Resources

- **Phase 1**

- Solar resource ~150MW capacity – Fully subscribed
- Connected to Ameren Illinois transmission and MISO

- **Next Phases**

- Solar or Wind resources ~ sized to meet subscriber demand
- Connected to the Ameren Missouri or Ameren Illinois transmission and MISO

Oversubscription Allocation

Distribute the available MW on a pro-rata basis to each of the customers subscribed

Customer	MW Desired	Pro-rata %	MW Assigned
A	100	50%	50
B	50	50%	25
C	50	50%	25
D	100	50%	50
Total	300 MW	50%	150 MW

Net Capacity Factor (NCF)

- NCF is the expected average hourly alternating current output of the Program Resource divided by the nameplate capacity of the Program Resource measured in kW of alternating current power
- The expected NCF is 25.8%
- We arrived at this value based on an independent evaluation of the P50 NCF (P50 is the middle of the bell curve)
 - Developer – 27.7% (initial and has been revised down)
 - Burns and McDonnell – 25.8%

Bill Calculator

- Shows the impact of various levels of subscription to support your selected participation level
- Results are based upon your specific annual usage information

Your Next Steps to Support Clean Energy

- Review RSP Agreement
- Review RSP tariff sheets
- Identify accounts to be included in RSP
- Determine your subscription level to be prepared for the next RSP Enrollment Event
