

ELECTRIC VEHICLE BENEFITS

Electric vehicles are fun and exciting to drive, easy to charge and cost less to fuel and maintain.

Benefits of driving electric include:

Quick, smooth acceleration

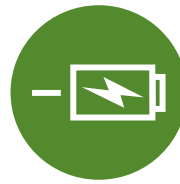

Many electric vehicle types to choose from— SUVs, sports cars and sedans

Easy to find charging options

More than 100 public chargers in the Greater St. Louis area

300+ mile range models available

Charge your car while you work, shop, eat or sleep

Save up to \$1,200 annually in fuel and maintenance cost

Federal tax incentives available

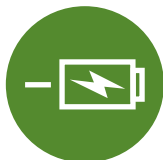

ELECTRIC VEHICLE CHARGING

Ameren Missouri is your electric vehicle charging resource.

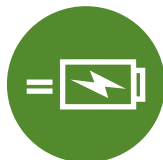

Whether at home or on the road, it is easy to charge your electric car.

Electric vehicle charging options to meet your needs:

Level 1

- Provides 4 miles of range per hour of charge
- Comes with every electric vehicle
- Plug directly into a standard 120-volt outlet
- No other special charging equipment needed

Level 2

- Provides 25 miles of range per hour of charge
- Commonly used for public, work or home charging
- In-home installation is available

DC Fast Charging

- Provides 80% charge in 30 minutes
- Typically located along major highway corridors

How to find a public charger:

Finding nearby public charging is easy using tools in the vehicle and apps like **Plugshare.com** and **Openchargemap.com**.
