The availability of the credit will depend on several factors, including the vehicle's MSRP, its final assembly location, battery component and/or critical minerals sourcing, and your modified adjusted gross income. Cars must also be purchased for personal use in the U.S. and must have a gross vehicle weight rating of less than 14,000 lbs and a battery capacity of at least 7 kilowatt hours.

Check if your car qualifies with this link: [fuelconomy.gov/feg/tax2023.shtml](https://fuelconomy.gov/feg/tax2023.shtml) by choosing the model year, make, and model.

**Fun to Drive. Easy to charge. Costs less to fuel and maintain.**
