
RATE DS-1-RESIDENTIAL DELIVERY SERVICE

AVAILABILITY

- * 1. Service under this Rate is available for any eligible Residential Customer, as determined by the Company, within the territory served by Company under this Schedule where power and energy used at Customer's Premises is for predominantly Residential household purposes, meeting the following criteria:
 - * a. A dwelling of one or two units receiving electric service through a single meter and where each unit is used as a residence, or a dwelling of two or more units where each unit is receiving electric service through a separate meter and each unit is used as a residence.
 - b. Homes that are served by a single meter where usage is a combination of home and farm use. Usage shall be limited to service within the residence on the farm and that required for all general farming and agricultural purposes conducted on the premises served. Where separate meters are required to supply other operations, each additional meter shall be billed under the applicable Non-Residential rate.
 - c. Recreation facilities consisting of summer cottages, homes, trailers or boat slips where service is individually metered and intended for continuous use by the same single family.
- 2. Service under this Rate is not available to Customers when power and energy would be used at Customer's Premises for predominately Non-Residential purposes. Structures which are not considered Residential include, but are not limited to the following:
 - a. Multiple-occupancy club houses, recreational lodges, sorority or fraternity houses, dormitories, assisted living residences or other buildings used for group living or similar activities, where individual units are typically not metered separately.
 - b. A residence or dwelling unit whose occupants are expected to be transient in nature.

RATE DS-1-RESIDENTIAL DELIVERY SERVICE

MONTHLY CHARGES

- * **Customer Charge:**
Applicable to each electric service account where Customer takes service under this Rate as shown for the applicable year in the Appendix of the Rate PBR-R tariff.
- * **Meter Charge:**
Applicable to each electric service account where Customer elects to receive Metering Services from the Company as shown for the applicable year in the Appendix of the Rate PBR-R tariff.
- * **Distribution Delivery Charge:**

Applicable on a per kWh delivered basis as shown for the applicable year in the Appendix of the Rate PBR-R tariff.

Power and Energy Charges:

Customer has the option to purchase power and energy from the Company or a Retail Electric Supplier (RES). If Customer elects to take power and energy from the Company, electric power and energy shall be furnished pursuant to Rider BGS or RTP. Such election represents a continuation of Bundled Service for Customers in accordance with Section 16-103 of the Illinois Public Utilities Act.

RATE DS-1-RESIDENTIAL DELIVERY SERVICE

Transmission Charges:

1. For Customer taking power and energy service from the Company:
Customer will be responsible for all applicable charges in Rider TS, Transmission Service.

2. For Customer taking power and energy service from a RES:
RES will be responsible for all applicable charges for Transmission Services for its power and energy Customers pursuant to the Transmission Provider's FERC-approved tariffs related to Transmission Service.

MINIMUM BILL

Customer Charge and Meter Charge (if applicable) each month, plus all other applicable fees and charges under this Schedule.

TERMS OF PAYMENT

Customer's bills for service under this Rate shall be rendered and payments due in accordance with the Billing and Payment Section of the Customer Terms and Conditions.

GRANDFATHERING PROVISIONS

Multiple-occupancy buildings constructed before November 1, 1981, where electric service is delivered and metered at one point and are served under a Residential rate as of January 2, 2007, may continue to be served under a Residential rate.

RATE DS-1—RESIDENTIAL DELIVERY SERVICE

The total monthly bill to each grandfathered multiple-occupancy building shall be equal to the monthly Meter Charge plus the total number of dwelling units therein multiplied by the bill per dwelling unit. The bill per dwelling unit shall be calculated by applying each component of Rate DS-1, except the monthly Meter Charge. The average kWh use per dwelling unit shall be equal to the total building use divided by the number of dwelling units, rounded to the nearest kWh. Electrical use for common building services such as hall lights, elevators and laundry areas used exclusively by tenants may be metered and billed through the main building meter. Use for restaurants, arcade shops, retail stores, office space, or any other commercial venture must be separately metered and billed on the appropriate Non-Residential rate.

Customers receiving three-phase service before January 2, 2007 shall be allowed to continue such service without incurring additional expense from the Company. Notwithstanding the above, the Customer shall be responsible for replacement of equipment placed on the Customer's side of the meter to convert single-phase service to three-phase service on and after January 2, 2007.

TERMS AND CONDITIONS

- * The amount of base rate delivery service uncollectible expense recovered on a per Customer basis each month pursuant to ICC Order in Docket No. 09-0399 and subsequent Orders addressing delivery service rates as shown for the applicable year in the Appendix of the Rate PBR-R tariff.

Service hereunder is subject to the Customer Terms and Conditions, Standards and Qualifications for Electric Service, Tax Additions, and Supplemental Customer Charge Tariffs of this Schedule, as well as any other applicable Rates, Riders, taxes, adjustments, fees or charges that may be approved by the ICC from time to time and in effect.
